

## Challenges Report

### Outline

Report on Challenges Faced During Database Implementation Using MS SQL

### Challenges Encountered

1. **Setting up MS SQL Server and SSMS Environments:** Initial setup was complex and time-consuming due to various configurations.
2. **Recap of SQL Queries and Database Building:** Refreshing SQL knowledge and implementing database structures required revisiting concepts and gaining practical experience.
3. **Utilizing Online Resources:** Watching a [YouTube tutorial](#) provided valuable guidance on MS SQL setup, SSMS usage, and SQL query execution.
